## **UML Class Diagram For Class HealthProfile**

## HealthProfile

firstName: Integer
lastName: Integer
gender: String
month: Integer
day: Integer
year: Integer
height: Double
weight: Integer
age: Integer

## «constructor»

+ HealthProfile (firstName: String, lastName: String, gender: String,

month: Integer, day: Integer, year: Integer, weight: Integer,

height: Double, currentDay: Integer, currentMonth: Integer, urrentYear: Integer)

- + setFirstName(firstName : String) : Void
- + getFirstName(): String
- + setLastName(lastName : String) : Void
- + getLastName() : String
- + setGender(gender: String): Void
- + getGender() : String
- + setMonth(month : Integer) : Void
- + getMonth() : Integer
- + setDay(day : Integer) : Void
- + getDay() : Integer
- + setYear(year : Integer) : Void
- + getYear() : Integer
- + setHeight (height : Double) : Void
- + getHeight() : Double
- + setWeight(weight: Integer): Void
- + getWeight() : Integer
- + setAge(currentDay: Integer, currentMonth: Integer, currentYear: Integer): Integer
- + getAge() : Integer + getBMI() : Double
- + getMaximumHeartRate() : Integer + getTargetHeartRate() : Double
- + getInformation(): Void
